The Burger Garage is proud to be one the few fast-casual burger restaurants to offer **GLUTEN FREE BUNS** for our burgers and dogs. While many restaurants offer a "gluten free burger or hot dog" option it is typically served without a bun or wrapped in lettuce. For those who require (or choose) a gluten-free diet that's no fun. We want our customers to enjoy our burgers and dogs the way they are meant to be enjoyed - served on soft, delicious buns with a side of crispy fries which we fry in "designated gluten free" fryers.

IMPORTANT - Always verify your Gluten Free Bun Order!

For those who have severe reactions to trace amounts of gluten, please note there is a very slight chance of cross contamination on our prep surfaces and caution is advised.

All Prices are Subject to Change
